Let it Grow Heartsease

96-98 Rider Haggard Road, Heartsease,
NR7 9UQ,

E: letitgrowheartsease@outlook.com

Let it Grow is a group of gardening enthusiasts who plant, tend, and harvest food crops for the Heartsease community. All are welcome to join us regardless of skills and experience. We share these things between us and learn from each other while forming bonds of friendship.

Environmentally friendly: We aim to reduce CO2 emissions by growing food locally and encouraging others to do likewise, using organic methods to produce compost and control pests and weeds. Planting wildflowers and creating habitats for birds, insects, and pond life.

Disabled access: There is access for disabled to enjoy the scents of and visual aspect of the raised bed, herb garden, willow archway and generally view the garden.

We Meet: At the garden behind St. Francis Church, next to a former Doctors surgery on Wednesday mornings from 9.30am to 12.00pm with a break around 11.00am for a drink and snack.

Do come and join us, you will be made welcome.

Other activities: We have had special events for children to provide the opportunity to build bird box's, insect hotels, wood shelters and have a fire pit with adult supervision.
